CUP8™

Patent pending, April 2008

The Cup8 makes drinking from Eco-cups (a.k.a. deposit cups) fun!
No more swopping, just keep your own cup with you the entire party or festival long. Next to benefits for the user, it is a very interesting product for advertisers and sponsors.

Pro's

- ✓ Easier use of Eco-cups for customer and organizer;
- ✓ Less waste! Up to 3600 kilo plastic per day at a large festival, as no throw-away-cups have to be used anymore;
- ✓ Attractive possibility for advertisers and sponsors; large exposure to audience.

CUP8

enviu
innovators in sustainability

Wear the cup8 on a belt, bag, sweatband, hat, shirt or as an anchor in your pocket!

The cup8 is made from cardboard and can easily be printed for different parties, functions and ads.

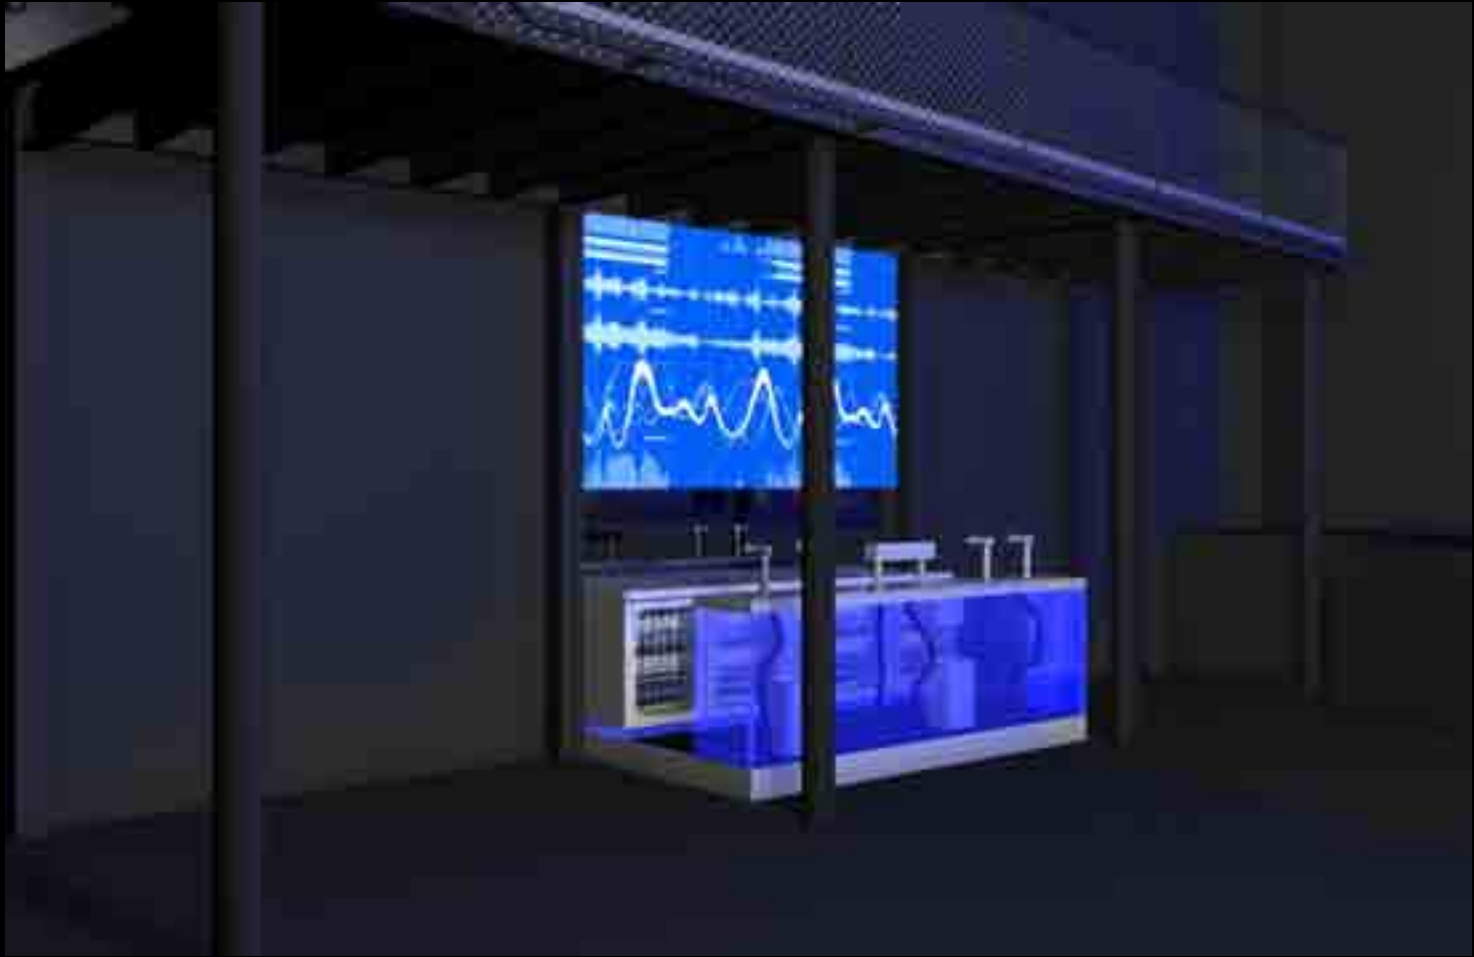

The shape of the Cup8 is very suitable for many additional functions. Some examples:

- ✓ Map of festivity area;
- ✓ Line-up or program;
- ✓ Doorknob or tent hanger;
- ✓ Push-out event coins or cards;
- ✓ Souvenir of party or artist;
- ✓ Shirt and tie matcher;
- etc.

Cup8 is a registered product of Sustainable Dance Club. For more information regarding prices, specifications and delivery, please contact: Kickel van Schaik, kickel@sustainabledanceclub.com or call: +31(0)102867970
